- Complex and Advanced Gynec-Onco-Surgeries
- Counselling
- Daycare Chemotherapy and Procedures
- Early Detection of Breast Cancers
- Haematology Service
- HIPEC-Hyperthermic Intra Peritoneal Chemotherapy
- Intra Cavitary Chemotherapy
- Intensity Modulated Radiation Therapy (IMRT)
- Micro Vascular Reconstruction
- Multi-disciplinary Tumour Board
- Palliative Care
- PET-CT scan
- PIPAC (Pressuraised Intra Peritoneal Aerosal Chemotherapy)
- Play Therapy Clinic
- Radioisotope Occult Lesion Localization (ROLL)
- Radioactive Iodine Therapy
- Radioembolisation using Y90 Microspheres
- Robotic Surgery
- Sentinel Lymph Node Study (SLNB)
- Speech Rehabilitation and Voice Prosthesis
- IORT (Intraoperative Radiotherapy)
- Image-Guided Surgery with ICG
- Skull-base surgery
- MIRP
- Immunotherapy

Adult & Paediatric Haemato-Oncology & BMT

Stem cell transplantation (Bone marrow transplantation) services at Aster Hospitals Bangalore

We have a state-of-the-art dedicated bone marrow transplant unit catering to both adult and pediatric patients. The unit is run by three well-trained, experienced and reputed senior transplant physicians along with a dedicated and competent nursing team. The transplant unit is supported 24/7 by adult and pediatric superspeciality services to address any complicated issues that may arise during the transplantation procedure. We offer both autologous and allogeneic transplant including haploidentical transplant for a wide range of conditions. We have completed several high-risk transplantation procedures successfully over the past few years.

The disease types for which allogeneic transplants are performed in our unit include leukemias, lymphomas, aplastic anemias, hemoglobinopathies such as thalassemia and sickle cell disease, inherited bone marrow failures, primary immunodeficiencies and other rare genetic conditions. Autologous transplants are performed for lymphomas, multiple myeloma, neuroblastomas, brain tumors and other relapsed solid organ tumors. In addition, we have comprehensive adult and pediatric cancer care and benign hematology services.
